Supporting our Community

The Greenbank Services Club Community Benefit Foundation has been established to provide support to the local community and will provide direct grants to charitable organisations helping improve community welfare and make our local communities a better place to live, work and play.

The Foundation also aims to target charitable organisations with limited resources and/or financial support.

We welcome applications from eligible Not-for-Profit organisations that provide vital local services within the Brisbane Southside Suburbs, in the areas of childhood/youth; people with disabilities; environmental care and social/community welfare.

The pillars of the Greenbank Services Club Community Benefit Foundation are supporting youth, health, culture and community.

Grant Amounts

An amount of up to \$150,000 in total is available from the Greenbank Services Club Community Benefit Foundation annually. Individual grants range from \$1,000 to \$10,000 per application except where it can be proven that meaningful impact will result from the community grant, in which case the funds allocated may be greater.
